

## ABOUT US

Rig Booster caters to the requirements of customers by providing unique products and services that exist in the region for the first time.

From gaming computers, PC repair and customization, and high-end technology environment design, to unique luxury workstations, Rig Booster aims to consistently provide comfort and excellence not only for individuals but applicable for all users in any industry.

### OUR PRODUCT – THE EMPEROR WORKSTATION

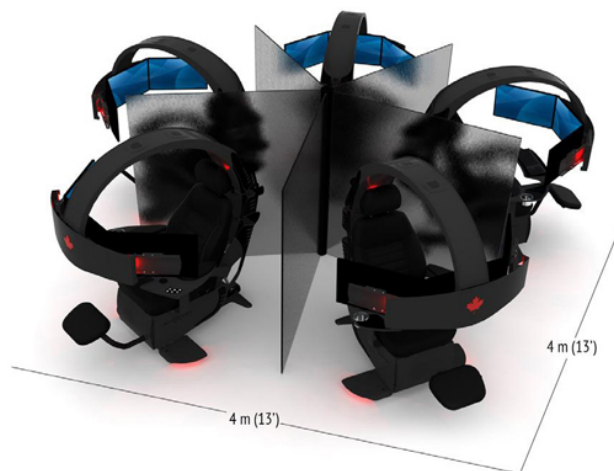

With the signature Emperor scorpion shape and outline, an industrial grade steel structure, tilting capabilities, integrated audio system, LED lighting and much more, the Emperor is the future of high-end home and office computer work environments.

The Emperor offers functionalities that enable the user to experience unprecedented comfort and quasi total immersion through strategically positioned monitors and accessories. The result is a complete computer office, ergonomically optimized, with a minimal footprint that improves overall performance and productivity.

- COMFORT, PRIVACY AND SMALL FOOTPRINT

*Reduce costs by shrinking the overall footprint of space while consolidating your workforce.*

*The Emperor can help organizations optimize their real estate by delivering a high-performance work environment in a effective footprint without compromising individual wellbeing.*

## ADJUSTABILITY

*With an exceptional load capacity, a low energy standby mode, a wide range of adjustments at your fingertips, the Emperor is ideal for individuals expecting the most from themselves and their work environment. To get in and out of the Emperor easily and to adjust the height of the monitor(s), use the electrical upper section lifting and lowering controls. For the utmost comfort and to partially relieve back pressure, the Emperor can tilt forward and backward.*

## WHAT WE ARE LOOKING FOR

We are looking for a partner/company who will do the following:

1. Customs Clearing Shipment. Doing all the necessary paper works and the PRO Services for clearing the items from customs. All custom fees will be paid by us.
2. Storage Space/Warehouse. A necessary temporary space for storage prior to installation to client location.
3. Installation. Install the workstation in the client/customer premises.

If you can do the specified job requirement stated, drop us an email.

## REQUIREMENT

Submit your proposal or if you have other questions, kindly drop us an email to [hello@samoygroup.com](mailto:hello@samoygroup.com).
